OBJECTIVE

Educate, Motivate, and Inspire individuals through example and proven techniques to understand the value of a positive mental attitude, the possible results in having a positive attitude, and how to create, implement, strategies to sustain a balanced life, business, and family achieving success in their life goals.

BACKGROUND/ BIO

A Severe Traumatic Brain Injury (TBI) Survivor: 9/22/11, Motivational Speaker, Radio Host: Brain Injury Radio Network, Ziglar Legacy Certified Trainer, and TBI One Love founder: 501c3 brain injury support organization connecting, educating, inspiring brain injury survivors and caregivers from over 12 countries, James Durham shares his experience and training techniques in how to turn survival of a brain injury, life-changing event, or simply life into positive, successful, and significant outcomes.

James continues to help, encourage, and inspire many finding themselves touched with Brain Injury. TBI One Love has members from across the world who James has individual relationships with. As an advocate, James and TBI One Love Radio, Social Media, and publications share his story of hope but also important information, research, and speakers educating those in need and also the general public regarding brain injury awareness and issues.

In speaking, James shares his own experience of overcoming great obstacles in recovery after waking from a coma, the long journey, the new challenges and differences, the necessary components needed for anyone facing life with a brain injury themselves or as a caregiver to help others have hope and success in any trials they may face. The example James presents in his own experience and outcome is beneficial for anyone in overcoming and/or simply changing perspectives in life's true meaning and purpose while inspiring an "anything is possible" approach to all.

As a Ziglar Legacy Certified Trainer and Ziglar Speaking Institute graduate, James also incorporates the proven techniques by Zig Ziglar, one of the greatest and most well-known motivational speakers and teacher of all time, introducing the techniques to change your life and thus, the outcome simply by changing your mental attitude and balancing your life for anyone regardless of their life today.

"If you love the life you live, your life will love you back" James Durham
